Main Report

**Main Issues Raised on the
Proposed Amendments to the Draft County
Development Plan 2007 in relation to the Proposed
Amendments to the Draft Record of Protected
Structures**

Introduction

This Section of the Manager's Report deals with submissions relating to Proposed Change 7.5 which included additions, deletions or amendments to the Record of Protected Structures. The Section is divided into four subsections as follows:

Section A: Proposed Change as per the Proposed Amendment Document 19th September 2008

Section B: General Submissions Received

Section C: Manager's Response on Submissions Received on Individual Structures relating to Proposed Change 7.5

Section D: Summary Table of Manager's Response to all Proposed Changes

Section A includes the Proposed Change as per the Proposed Amendment Document which was published on 19th September 2008.

Section B relates to general submissions received relating to the Record of Protected Structure.

Section C includes the Manager's response to submissions relating to individual proposed Record of Protected Structures.

Section D includes a summary table of all the proposed changes incorporated into the Proposed Change 7.5.

The general submissions received supported the inclusion of the proposed additions to the Record of Protected Structure in the Proposed Amendment to the Draft County Development Plan.

The submissions relating to individual proposed RPS raised a number of issues including support of the proposed change, amendments to the change and removal of a number of proposed RPS. In relation to the requests to remove a structure a number of issues were raised in relating to the merit of including the structure and the implications of the structure being included in the Record of Protected Structure. In some cases it is acknowledged that a building internally may lack any significant original features as a result of alteration and modernisation. However, the remainder of the building could have architectural merit and unusual features that merits its inclusion. A Section 57 Declaration can be sought on each structure by the owner where the Council will establish the extent of what is being protected.

In each case the submission have been considered with advice from the Heritage Unit of Cork County Council in order to form the Manager's Response to the proposed change.

It is considered that there are no issues arising from the Appropriate Assessment of the County Development Plan in relation to this proposed change.

PLANNING ISSUES AND MANAGER'S RESPONSE

The submission supports and welcomes the addition of structures to the RPS the proposed amendment change of the Plan.

The Submission from the DOEHLG relates to the issue that structures should not be removed from the RPS unless the structure no longer possesses the special interest that caused it to be included in the RPS in the first instance. While on the other hand the submission agrees that if structures have lost their special interest that they should be removed from the RPS. It does however state that removing a protected structure from the RPS does not in itself alter the intrinsic architectural merit or character of the particular structure.

This approach will be considered at the next stage of considering the Record of Protected Structures.

The other general submission was received from Mitchelstown Heritage Society which supports the addition of structures to the RPS proposed as part of Submission No. 1150 received on the Draft plan.

PLANNING ISSUES AND MANAGER'S RESPONSE

The relevant planning issues in this case are concerned with

- the removal of the proposed RPS or amend the description in line with the NIAH. It is recognised that there are no longer workhouse buildings located within the site. However, the surrounding boundary wall does merit protection. It is considered that the description 'former Workhouse Wall' is more accurate and clear and it is recommended that the wording be amended to say 'Former Workhouse Wall' in place of Former Workhouse.

Recommendation: The Christian Brothers Monastery forms part of a wider ecclesiastical complex comprising of church, graveyard, convent, schools and Legion of Mary Hall. Although no longer in use the building makes a significant contribution to the town as the monastery for the adjacent Christian Brothers School. The building is both of architectural, historical and cultural merit and should be added to the Record of Protected Structures. Inclusion supported by Ministerial Recommendation.

PLANNING ISSUES AND MANAGER'S RESPONSE

The submission raises the matter of the implications of having a structure included as a proposed RPS in relation to proposed work to be carried out to the church.

It is considered that the inclusion of the structure as a proposed RPS does not necessarily preclude such work; it is therefore recommended that the building is included as a RPS in recognition of its architectural merit.

PLANNING ISSUES AND MANAGER'S RESPONSE

The relevant planning issues in this case are concerned with the removal of the proposed RPS. The Minister for the Environment, Heritage and Local Government recommends the gate pillars for inclusion in the Record of Protected Structures and the Heritage Unit concurs with this recommendation. The gate piers are a fine example of excellent craftsmanship. They consist of large ashlar blocks with rustication and ribbon dressing. The gate piers are currently in good condition and do not require any works.

PLANNING ISSUES AND MANAGER'S RESPONSE

*The relevant planning issues in this case are concerned with
- the removal of the proposed RPS.*

This building warrants inclusion in the Record of Protected Structures in recognition of its vernacular architectural features. The building contains a very steeply pitched roof, sash windows of varying types, which add interest to the main elevations of the building, while the building position relative to the road and the general group of outbuildings creates a strong focal point in the landscape.

However, the notification letter was issued to a John Kent, therefore it is accepted that adequate notification was not given. In light of this it is recommended that the building is not added to the Record of Protected Structures in this instance. It should be noted that consideration may be given to its proposed addition at a future date and is included on the National Inventory of the Architectural Heritage.

The relevant planning issues in this case are concerned with the removal of the proposed RPS. The thatch house has a high level of intactness and should be included in the Record of Protected Structures. It is considered that there are no issues arising from the Appropriate Assessment of the County Development Plan in relation to this proposed change.

PLANNING ISSUES AND MANAGER'S RESPONSE

*The relevant planning issues in this case are concerned with
- the removal of the proposed RPS.*

While it is acknowledged that the building internally lacks any significant original features, the remainder of the building does have architectural merit and unusual features, and also contributes to the streetscape. It is therefore recommended that the building be added to the Record of Protected Structures. This is also a recommendation from the Minister of Environment, Heritage and Local Government.

Recommend no change to the proposed amendment

PLANNING ISSUES AND MANAGER'S RESPONSE

The relevant planning issues in this case are concerned with

- the removal of the proposed RPS.

This building has a number of unusual architectural features. It is a corner site, five-bay, two storey structure, with attic accommodation over. Original features include, rendered chimney stacks, terracotta chimney pots, rendered walls, rusticated quoins, decorative cornices and keystones and moulded rendered surrounds. It is therefore recommended that this building be added to the Record of Protected Structures in recognition of its architectural and historic merit. The Minister for the Environment, Heritage and Local Government has also included this building within his Ministerial Recommendations.

Recommend no change to the proposed amendment.

PLANNING ISSUES AND MANAGER'S RESPONSE

The relevant planning issues in this case are concerned with

- the removal of the proposed RPS based on a number of issues or amend in accordance with the NIAH survey.

Taking into consideration the submission and the NIAH survey it is recommend that the front elevation of the stable yard building be included on the RPS. This is a pedimented three bay entrance breakfront to centre having occlus to pediment. It is recommend that the proposed change be amended by changing the description of the proposed RPS to 'Farmyard Complex' as per NIAH.

Recommend to modify the proposed change.

PLANNING ISSUES AND MANAGER'S RESPONSE

The submissions support the inclusion of Carillon Lodge as a proposed RPS.

The building has been included as a proposed Record of Protected Structures in recognition of its architectural merit and historical associations. Carillon Lodge is a very unusual octagonal gate lodge with gothic style windows and is associated with Courtmacsherry House. It is therefore recommended that the building be added to the Record of Protected Structures.

PLANNING ISSUES AND MANAGER'S RESPONSE

The submission requests the removal of the proposed RPS.

This house consists of a primary residential house, which incorporates an earlier vernacular dwelling, and a series of significant outbuildings to the rear and side of the existing dwelling. This complex of buildings has significant architectural merit and contributes to the overall streetscape along Station Road, which contains a number of historic structures. It is therefore recommended that this building is added to the Record of Protected Structures.

PLANNING ISSUES AND MANAGER'S RESPONSE

The submission requests the removal of the proposed RPS.

This church dates to 1840. While it has obviously undergone some changes it still retains much of its original historic fabric. The building is also of historical merit being built on the site of an earlier church. It is therefore recommended that the building is added to the Record of Protected Structures.
