

## APPENDIX B: LIST OF PLACES

**A B C D E F G H I J K L M N O P Q R S T U V W X Y Z**

### Note:

The following table serves as a checklist of relevant zoning maps for the various settlements and locations throughout the county, including the 31 main settlements for which new zoning maps have been included in this plan (see Volumes 3 and 4).

Most of the references however relate to a range of smaller settlements and locations for which there are no new zoning specific objectives in this plan. The governing provision for these areas is objective ZON 1-4 in Chapter 9 of this volume. It states as follows: "Where lands outside the main settlements were zoned in the 1996 County Development Plan (or in subsequent variations to that plan), the specific zoning objectives for such lands, until such time as the appropriate Local Area Plan has been adopted, shall be those set out in the 1996 County Development Plan (as varied), subject to such objectives being consistent with the overall strategy and general objectives of this plan.

The table shows the relevant page number and volume from the 1996 County Development Plan where the relevant basic zoning map can be found, together with a reference (where appropriate) to any subsequent zoning variations that were made for that settlement / location.
